Description

The 680 FLY changes the way yachts in all classes are measured. With a lightweight construction taking advantage of carbon technologies, its powerful power plant, stunning performance, and design, the 680 FLY features more game-changing features. On board the 680, passengers will find incredible volume, a bright and welcoming interior, and a luxurious finish.

The foredeck can be transformed into an expansive seating area with a touch of a button. The vast flybridge is most impressive with plentiful seating, wet bar entertaining, and a carbon hardtop and the opening windows in the salon allow cool breezes to sinuously blend inside and outside spaces. With 4 cabins, 30+ knot performance, and amazing innovation the 680 FLY sets new benchmarks.
